

“WHAT OUR CUSTOMERS HAVE TO SAY

THE CHALLENGE

What was the challenge at hand before working with us & how did that make you feel?

“Prior to working with Sales Squared I was **struggling with the amount of time required** to make connections with key decision makers”.

THE GOAL

What were the goals & expectations going into your campaign? Were you skeptical at all?

“The key goals were for me to get out into my marketplace, make connections, build my network and close some new sales. **I wasn't skeptical at all**”.

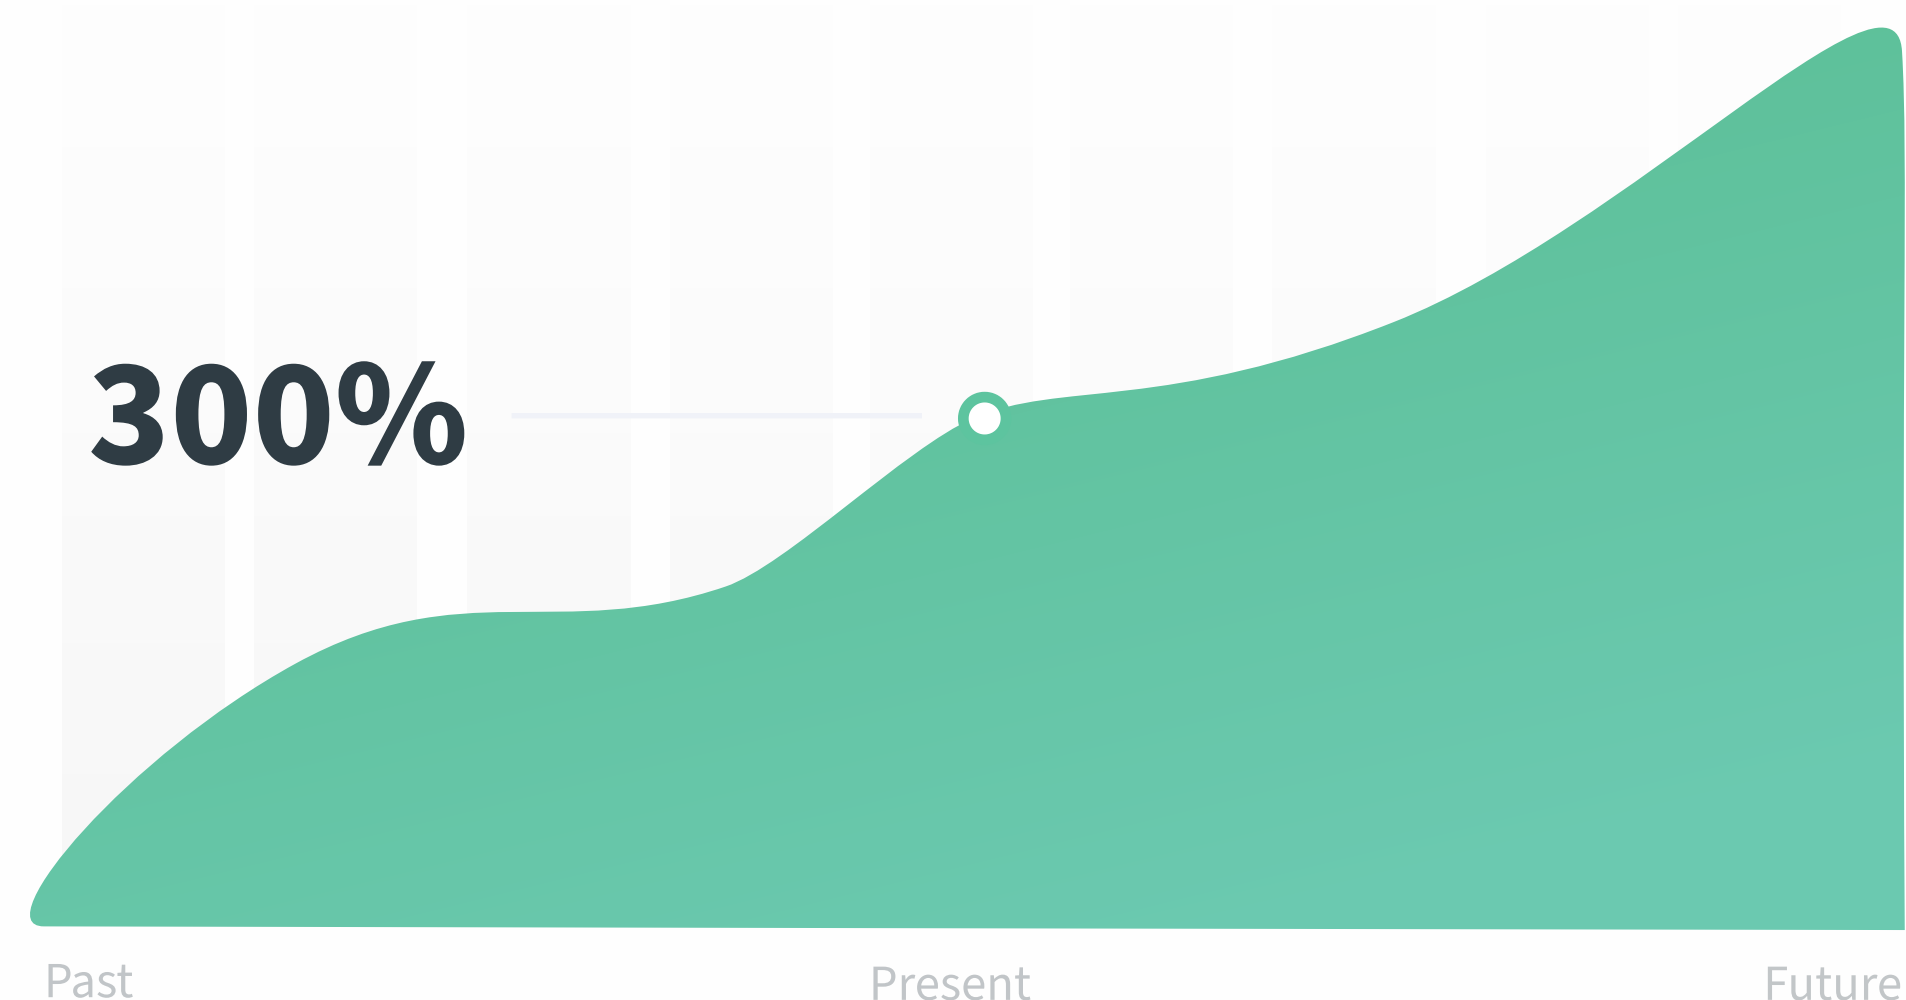

THE RESULTS

How long did it take to win your first client? How many clients did you sign? What kind of projects were they? What is the expected lifetime value of a client?

“**Within the second month of the campaign I had two new coaching clients** and four good prospects for future work”.

THE RETURN ON INVESTMENT

“If I had to give a ballpark figure, it would be around ~300%. I fully expect it to increase as more deals close and more opportunities arise”.

TESTIMONIAL
